OW-AI Platform - Frontend Component Inventory

October 12, 2025

- Frontend Component Inventory - OW-AI Platform
  - Overview
  - 🔐 **Authentication Components**
    - Login.jsx
    - Register.jsx
    - ForgotPassword.jsx
    - ResetPassword.jsx
  - 📊 **Dashboard Components**
    - Dashboard.jsx
    - AppContent.jsx
  - 🚨 **Alert Management Components**
    - AIAlertManagementSystem.jsx
    - SmartAlertManagement.jsx
    - Alerts.jsx
    - AlertPanel.jsx
  - 🛡️ **Authorization Center Components**
    - AgentAuthorizationDashboard.jsx
    - AuthorizationExample.jsx
  - 📋 **Policy Management Components**
    - EnhancedPolicyTab.jsx
    - EnhancedPolicyTabComplete.jsx
    - VisualPolicyBuilder.jsx
    - VisualPolicyBuilderAdvanced.jsx
    - PolicyTester.jsx
    - PolicyAnalytics.jsx
    - PolicyVersionControl.jsx
    - PolicyBlockedModal.jsx
    - PolicyEnforcementBadge.jsx
    - PolicyImpactAnalysis.jsx
  - 🤖 **Smart Rules Components**
    - SmartRuleGen.jsx
    - RulesPanel.jsx
    - RuleEditor.jsx
    - RulePerformancePanel.jsx
  - 👥 **User Management Components**
    - EnterpriseUserManagement.jsx
    - ManageUsers.jsx
    - Profile.jsx
  - 🏢 **Enterprise Features Components**
    - EnterpriseSettings.jsx
    - EnterpriseSecurityReports.jsx
    - EnterpriseWorkflowBuilder.jsx
    - EnterpriseApiProvider.jsx
  - 📊 **Analytics & Reporting Components**

    - Analytics.jsx
    - RealTimeAnalyticsDashboard.jsx
    - SecurityReports.jsx
  - 🔧 **Agent Management Components**
    - AgentActionsPanel.jsx
    - AgentActionSubmitPanel.jsx
    - AgentActivityFeed.jsx
    - AgentHistoryModal.jsx
  - 🎨 **UI/UX Components**
    - Sidebar.jsx
    - Breadcrumb.jsx
    - ToastNotification.jsx
    - ToastAlert.jsx
    - BannerAlert.jsx
    - GlobalSearch.jsx
    - SupportModal.jsx
  - 🔐 **Security & Compliance Components**
    - SecurityPanel.jsx
    - SecurityDetails.jsx
    - SecurityInsights.jsx
    - Compliance.jsx
    - ComplianceMapping.jsx
    - AuditTrailModal.jsx
  - 🔄 **Supporting Components**
    - SubmitActionForm.jsx
    - ReplayModal.jsx
  - 📱 **Context Providers**
    - AlertContext.jsx
    - ThemeContext.jsx
    - AccessibilityContext.jsx
  - 🧪 **Test Files**
    - AgentAuthorizationDashboard.test.jsx
  - 📊 **Component Testing Priority**
    - **Critical Business Components** (Must Test First)
    - **Enterprise Features** (High Priority)
    - **UI/UX Components** (Medium Priority)
    - **Supporting Components** (Lower Priority)

Frontend Component Inventory - OW-AI Platform

Overview

Total Frontend Files: 58 files discovered **Total Components**: 52 React components + 6 supporting files **Framework**: React with JSX **State Management**: Context API **Styling**: CSS + Component-level styling

---

🔐 Authentication Components

Login.jsx

- **Location**: `owkai-pilot-frontend/src/components/Login.jsx`
- **Purpose**: Primary user authentication interface
- **API Calls**: `POST /auth/token`
- **Features**:
  - ☐ Email/username input field
  - ☐ Password input field
  - ☐ Remember me checkbox
  - ☐ Submit button with loading state
  - ☐ Error message display
  - ☐ Validation handling
- **Status**: To be tested

Register.jsx

- **Location**: `owkai-pilot-frontend/src/components/Register.jsx`
- **Purpose**: User registration interface
- **API Calls**: `POST /auth/register`
- **Features**:
  - ☐ Registration form fields
  - ☐ Email validation
  - ☐ Password confirmation
  - ☐ Terms acceptance
  - ☐ Submit button
- **Status**: To be tested

ForgotPassword.jsx

- **Location**: `owkai-pilot-frontend/src/components/ForgotPassword.jsx`
- **Purpose**: Password recovery interface
- **API Calls**: `POST /auth/forgot-password`
- **Features**:
  - ☐ Email input for recovery
  - ☐ Submit button
  - ☐ Success confirmation
- **Status**: To be tested

ResetPassword.jsx

- **Location**: `owkai-pilot-frontend/src/components/ResetPassword.jsx`
- **Purpose**: Password reset interface
- **API Calls**: `POST /auth/reset-password`
- **Features**:
  - ☐ New password input
  - ☐ Confirm password input
  - ☐ Reset button
- **Status**: To be tested

📊 Dashboard Components

Dashboard.jsx

- **Location**: `owkai-pilot-frontend/src/components/Dashboard.jsx`
- **Purpose**: Main dashboard interface with metrics and KPIs
- **API Calls**:
  - `GET /api/dashboard/metrics`
  - `GET /api/dashboard/alerts`
  - `GET /api/dashboard/activity`
- **Features**:
  - ☐ Metrics cards display
  - ☐ Alert summary widgets
  - ☐ Activity feed
  - ☐ Quick action buttons
  - ☐ Real-time updates
  - ☐ Responsive layout
- **Status**: To be tested

AppContent.jsx

- **Location**: `owkai-pilot-frontend/src/components/AppContent.jsx`
- **Purpose**: Main application layout wrapper
- **Features**:
  - ☐ Route management
  - ☐ Component rendering
  - ☐ Layout structure
- **Status**: To be tested

🚨 Alert Management Components

AIAlertManagementSystem.jsx

- **Location**: `owkai-pilot-frontend/src/components/AIAlertManagementSystem.jsx`
- **Purpose**: Advanced AI-powered alert management interface
- **API Calls**:
  - `GET /alerts`
  - `POST /alerts/{id}/acknowledge`
  - `POST /alerts/{id}/escalate`
  - `POST /alerts/{id}/resolve`
- **Features**:
  - ☐ Alert list with real-time updates
  - ☐ Severity filtering (critical, high, medium, low)
  - ☐ Status filtering (active, acknowledged, resolved)
  - ☐ Alert sorting (timestamp, severity, status)
  - ☐ Acknowledge button with confirmation
  - ☐ Escalate button with reason input
  - ☐ Resolve button with resolution notes
  - ☐ Alert details modal/expansion
  - ☐ Bulk operations
  - ☐ Search functionality
  - ☐ Pagination
  - ☐ Auto-refresh capability

- **Status**: To be tested

SmartAlertManagement.jsx

- **Location**: `owkai-pilot-frontend/src/components/SmartAlertManagement.jsx`
- **Purpose**: Smart alert management with ML insights
- **API Calls**: Similar to AIAlertManagementSystem
- **Features**:
  - ☐ ML-powered alert classification
  - ☐ Predictive escalation suggestions
  - ☐ Pattern recognition insights
  - ☐ Alert correlation display
- **Status**: To be tested

Alerts.jsx

- **Location**: `owkai-pilot-frontend/src/components/Alerts.jsx`
- **Purpose**: Basic alert listing interface
- **API Calls**: `GET /alerts`
- **Features**:
  - ☐ Simple alert list
  - ☐ Basic filtering
  - ☐ Alert status display
- **Status**: To be tested

AlertPanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/AlertPanel.jsx`
- **Purpose**: Alert display panel component
- **Features**:
  - ☐ Alert information display
  - ☐ Action buttons
  - ☐ Status indicators
- **Status**: To be tested

🛡️ Authorization Center Components

AgentAuthorizationDashboard.jsx

- **Location**: `owkai-pilot-frontend/src/components/AgentAuthorizationDashboard.jsx`
- **Purpose**: Main authorization center dashboard
- **API Calls**:
  - `GET /api/authorization/dashboard`
  - `GET /api/authorization/pending`
  - `GET /api/authorization/metrics`
- **Features**:
  - ☐ Authorization metrics display
  - ☐ Pending approval queue
  - ☐ Risk score visualization
  - ☐ Approval workflow status

  - ☐ Historical analytics
- **Status**: To be tested

AuthorizationExample.jsx

- **Location**: `owkai-pilot-frontend/src/components/AuthorizationExample.jsx`
- **Purpose**: Example authorization workflow demonstration
- **Features**:
  - ☐ Example workflow display
  - ☐ Interactive demo
  - ☐ Step-by-step guide
- **Status**: To be tested

📋 Policy Management Components

EnhancedPolicyTab.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnhancedPolicyTab.jsx`
- **Purpose**: Advanced policy management interface
- **API Calls**:
  - `GET /api/authorization/policies/list`
  - `POST /api/authorization/policies/create`
  - `PUT /api/authorization/policies/update`
  - `DELETE /api/authorization/policies/delete`
- **Features**:
  - ☐ Policy list display
  - ☐ Create new policy button
  - ☐ Edit policy interface
  - ☐ Delete policy with confirmation
  - ☐ Policy search and filtering
  - ☐ Policy status management
- **Status**: To be tested

EnhancedPolicyTabComplete.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnhancedPolicyTabComplete.jsx`
- **Purpose**: Complete policy management with advanced features
- **Features**:
  - ☐ Full policy lifecycle management
  - ☐ Advanced policy editor
  - ☐ Policy validation
  - ☐ Policy testing interface
- **Status**: To be tested

VisualPolicyBuilder.jsx

- **Location**: `owkai-pilot-frontend/src/components/VisualPolicyBuilder.jsx`
- **Purpose**: Visual policy creation interface
- **API Calls**: Policy creation and validation APIs
- **Features**:

  - [ ] Drag-and-drop policy builder
  - [ ] Visual condition editor
  - [ ] Action selector
  - [ ] Policy preview
  - [ ] Validation indicators
- **Status**: To be tested

VisualPolicyBuilderAdvanced.jsx

- **Location**: `owkai-pilot-frontend/src/components/VisualPolicyBuilderAdvanced.jsx`
- **Purpose**: Advanced visual policy builder with complex logic
- **Features**:
  - [ ] Complex condition logic
  - [ ] Multiple action support
  - [ ] Advanced validation
  - [ ] Policy simulation
- **Status**: To be tested

PolicyTester.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyTester.jsx`
- **Purpose**: Policy testing and validation interface
- **API Calls**: `POST /api/authorization/policies/test`
- **Features**:
  - [ ] Policy test input form
  - [ ] Test scenario builder
  - [ ] Test result display
  - [ ] Performance metrics
- **Status**: To be tested

PolicyAnalytics.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyAnalytics.jsx`
- **Purpose**: Policy performance analytics
- **API Calls**: `GET /api/authorization/policies/analytics`
- **Features**:
  - [ ] Policy usage metrics
  - [ ] Performance charts
  - [ ] Effectiveness analysis
  - [ ] Optimization suggestions
- **Status**: To be tested

PolicyVersionControl.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyVersionControl.jsx`
- **Purpose**: Policy version management
- **Features**:
  - [ ] Version history display
  - [ ] Version comparison
  - [ ] Rollback functionality
  - [ ] Change tracking
- **Status**: To be tested

PolicyBlockedModal.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyBlockedModal.jsx`
- **Purpose**: Modal for policy blocked notifications
- **Features**:
  - ☐ Blocked action display
  - ☐ Reason explanation
  - ☐ Request override option
- **Status**: To be tested

PolicyEnforcementBadge.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyEnforcementBadge.jsx`
- **Purpose**: Policy enforcement status indicator
- **Features**:
  - ☐ Status badge display
  - ☐ Color-coded indicators
  - ☐ Tooltip information
- **Status**: To be tested

PolicyImpactAnalysis.jsx

- **Location**: `owkai-pilot-frontend/src/components/PolicyImpactAnalysis.jsx`
- **Purpose**: Policy impact analysis interface
- **Features**:
  - ☐ Impact visualization
  - ☐ Affected systems display
  - ☐ Risk assessment
- **Status**: To be tested

🤖 Smart Rules Components

SmartRuleGen.jsx

- **Location**: `owkai-pilot-frontend/src/components/SmartRuleGen.jsx`
- **Purpose**: AI-powered smart rule generation interface
- **API Calls**:
  - `POST /api/smart-rules/generate-from-nl`
  - `POST /api/smart-rules/generate`
  - `GET /api/smart-rules/suggestions`
- **Features**:
  - ☐ Natural language input field
  - ☐ Rule generation button
  - ☐ Generated rule display
  - ☐ Rule customization options
  - ☐ Save rule functionality
  - ☐ Rule preview
- **Status**: To be tested

RulesPanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/RulesPanel.jsx`
- **Purpose**: Smart rules management panel
- **API Calls**: `GET /api/smart-rules`
- **Features**:
  - ☐ Rules list display
  - ☐ Rule status toggle
  - ☐ Edit rule button
  - ☐ Delete rule button
  - ☐ Rule filtering
- **Status**: To be tested

RuleEditor.jsx

- **Location**: `owkai-pilot-frontend/src/components/RuleEditor.jsx`
- **Purpose**: Rule editing interface
- **Features**:
  - ☐ Rule condition editor
  - ☐ Action selector
  - ☐ Validation display
  - ☐ Save/cancel buttons
- **Status**: To be tested

RulePerformancePanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/RulePerformancePanel.jsx`
- **Purpose**: Rule performance analytics
- **API Calls**: `GET /api/smart-rules/analytics`
- **Features**:
  - ☐ Performance metrics
  - ☐ Effectiveness charts
  - ☐ Optimization suggestions
- **Status**: To be tested

👥 User Management Components

EnterpriseUserManagement.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnterpriseUserManagement.jsx`
- **Purpose**: Enterprise user management interface
- **API Calls**:
  - `GET /api/enterprise-users/users`
  - `POST /api/enterprise-users/create`
  - `PUT /api/enterprise-users/update`
  - `DELETE /api/enterprise-users/delete`
- **Features**:
  - ☐ User list display
  - ☐ Create user button
  - ☐ Edit user interface
  - ☐ Delete user confirmation
  - ☐ Role assignment dropdown
  - ☐ User search and filtering

  - [ ] Bulk operations
- **Status**: To be tested

ManageUsers.jsx

- **Location**: `owkai-pilot-frontend/src/components/ManageUsers.jsx`
- **Purpose**: Basic user management
- **Features**:
  - [ ] User CRUD operations
  - [ ] Role management
  - [ ] User status control
- **Status**: To be tested

Profile.jsx

- **Location**: `owkai-pilot-frontend/src/components/Profile.jsx`
- **Purpose**: User profile management
- **Features**:
  - [ ] Profile information display
  - [ ] Edit profile form
  - [ ] Password change
  - [ ] Preferences settings
- **Status**: To be tested

🏢 Enterprise Features Components

EnterpriseSettings.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnterpriseSettings.jsx`
- **Purpose**: Enterprise configuration settings
- **Features**:
  - [ ] System configuration
  - [ ] Security settings
  - [ ] Integration configuration
  - [ ] Compliance settings
- **Status**: To be tested

EnterpriseSecurityReports.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnterpriseSecurityReports.jsx`
- **Purpose**: Security reporting interface
- **Features**:
  - [ ] Security metrics
  - [ ] Compliance reports
  - [ ] Export functionality
- **Status**: To be tested

EnterpriseWorkflowBuilder.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnterpriseWorkflowBuilder.jsx`

- **Purpose**: Workflow creation and management
- **Features**:
  - ☐ Workflow designer
  - ☐ Step configuration
  - ☐ Workflow testing
- **Status**: To be tested

EnterpriseApiProvider.jsx

- **Location**: `owkai-pilot-frontend/src/components/EnterpriseApiProvider.jsx`
- **Purpose**: API integration provider
- **Features**:
  - ☐ API configuration
  - ☐ Connection testing
  - ☐ Error handling
- **Status**: To be tested

📊 Analytics & Reporting Components

Analytics.jsx

- **Location**: `owkai-pilot-frontend/src/components/Analytics.jsx`
- **Purpose**: Main analytics dashboard
- **API Calls**: `GET /analytics/performance`
- **Features**:
  - ☐ Performance metrics
  - ☐ Usage analytics
  - ☐ Interactive charts
  - ☐ Date range filtering
- **Status**: To be tested

RealTimeAnalyticsDashboard.jsx

- **Location**: `owkai-pilot-frontend/src/components/RealTimeAnalyticsDashboard.jsx`
- **Purpose**: Real-time analytics display
- **Features**:
  - ☐ Live metrics updates
  - ☐ Real-time charts
  - ☐ Performance monitoring
- **Status**: To be tested

SecurityReports.jsx

- **Location**: `owkai-pilot-frontend/src/components/SecurityReports.jsx`
- **Purpose**: Security analytics and reports
- **Features**:
  - ☐ Security metrics
  - ☐ Threat analysis
  - ☐ Compliance reporting
- **Status**: To be tested

🔧 Agent Management Components

AgentActionsPanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/AgentActionsPanel.jsx`
- **Purpose**: Agent actions display and management
- **Features**:
  - ☐ Action list display
  - ☐ Action status monitoring
  - ☐ Action details view
- **Status**: To be tested

AgentActionSubmitPanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/AgentActionSubmitPanel.jsx`
- **Purpose**: Submit new agent actions
- **Features**:
  - ☐ Action submission form
  - ☐ Validation handling
  - ☐ Success confirmation
- **Status**: To be tested

AgentActivityFeed.jsx

- **Location**: `owkai-pilot-frontend/src/components/AgentActivityFeed.jsx`
- **Purpose**: Real-time agent activity monitoring
- **Features**:
  - ☐ Activity stream display
  - ☐ Real-time updates
  - ☐ Activity filtering
- **Status**: To be tested

AgentHistoryModal.jsx

- **Location**: `owkai-pilot-frontend/src/components/AgentHistoryModal.jsx`
- **Purpose**: Agent action history display
- **Features**:
  - ☐ History timeline
  - ☐ Action details
  - ☐ Modal interface
- **Status**: To be tested

🎨 UI/UX Components

Sidebar.jsx

- **Location**: `owkai-pilot-frontend/src/components/Sidebar.jsx`
- **Purpose**: Main navigation sidebar

- **Features**:
  - ☐ Navigation menu items
  - ☐ Active page highlighting
  - ☐ Collapsible menu
  - ☐ User context display
- **Status**: To be tested

Breadcrumb.jsx

- **Location**: `owkai-pilot-frontend/src/components/Breadcrumb.jsx`
- **Purpose**: Navigation breadcrumb trail
- **Features**:
  - ☐ Current path display
  - ☐ Clickable navigation
  - ☐ Dynamic updates
- **Status**: To be tested

ToastNotification.jsx

- **Location**: `owkai-pilot-frontend/src/components/ToastNotification.jsx`
- **Purpose**: Toast notification system
- **Features**:
  - ☐ Success notifications
  - ☐ Error notifications
  - ☐ Warning notifications
  - ☐ Auto-dismiss functionality
- **Status**: To be tested

ToastAlert.jsx

- **Location**: `owkai-pilot-frontend/src/components/ToastAlert.jsx`
- **Purpose**: Alert toast notifications
- **Features**:
  - ☐ Alert-specific toasts
  - ☐ Customizable styling
  - ☐ Action buttons
- **Status**: To be tested

BannerAlert.jsx

- **Location**: `owkai-pilot-frontend/src/components/BannerAlert.jsx`
- **Purpose**: Banner alert display
- **Features**:
  - ☐ System-wide alerts
  - ☐ Dismissible banners
  - ☐ Priority styling
- **Status**: To be tested

GlobalSearch.jsx

- **Location**: `owkai-pilot-frontend/src/components/GlobalSearch.jsx`
- **Purpose**: Global search functionality

- **Features**:
  - ☐ Search input field
  - ☐ Search results display
  - ☐ Multi-category search
- **Status**: To be tested

SupportModal.jsx

- **Location**: `owkai-pilot-frontend/src/components/SupportModal.jsx`
- **Purpose**: Support and help modal
- **Features**:
  - ☐ Help documentation
  - ☐ Contact form
  - ☐ FAQ display
- **Status**: To be tested

🔐 Security & Compliance Components

SecurityPanel.jsx

- **Location**: `owkai-pilot-frontend/src/components/SecurityPanel.jsx`
- **Purpose**: Security overview panel
- **Features**:
  - ☐ Security status display
  - ☐ Threat indicators
  - ☐ Security actions
- **Status**: To be tested

SecurityDetails.jsx

- **Location**: `owkai-pilot-frontend/src/components/SecurityDetails.jsx`
- **Purpose**: Detailed security information
- **Features**:
  - ☐ Security metrics
  - ☐ Detailed analysis
  - ☐ Recommendations
- **Status**: To be tested

SecurityInsights.jsx

- **Location**: `owkai-pilot-frontend/src/components/SecurityInsights.jsx`
- **Purpose**: Security insights and recommendations
- **Features**:
  - ☐ AI-powered insights
  - ☐ Risk analysis
  - ☐ Action recommendations
- **Status**: To be tested

Compliance.jsx

- **Location**: `owkai-pilot-frontend/src/components/Compliance.jsx`
- **Purpose**: Compliance overview
- **Features**:
  - ☐ Compliance status
  - ☐ Framework mapping
  - ☐ Audit trails
- **Status**: To be tested

ComplianceMapping.jsx

- **Location**: `owkai-pilot-frontend/src/components/ComplianceMapping.jsx`
- **Purpose**: Compliance framework mapping
- **Features**:
  - ☐ Framework visualization
  - ☐ Control mapping
  - ☐ Gap analysis
- **Status**: To be tested

AuditTrailModal.jsx

- **Location**: `owkai-pilot-frontend/src/components/AuditTrailModal.jsx`
- **Purpose**: Audit trail display
- **Features**:
  - ☐ Audit log display
  - ☐ Search and filtering
  - ☐ Export functionality
- **Status**: To be tested

🔄 Supporting Components

SubmitActionForm.jsx

- **Location**: `owkai-pilot-frontend/src/components/SubmitActionForm.jsx`
- **Purpose**: Generic action submission form
- **Features**:
  - ☐ Dynamic form generation
  - ☐ Validation handling
  - ☐ Submission processing
- **Status**: To be tested

ReplayModal.jsx

- **Location**: `owkai-pilot-frontend/src/components/ReplayModal.jsx`
- **Purpose**: Action replay functionality
- **Features**:
  - ☐ Action replay display
  - ☐ Step-by-step playback
  - ☐ Replay controls
- **Status**: To be tested

📱 Context Providers

AlertContext.jsx

- **Location**: `owkai-pilot-frontend/src/context/AlertContext.jsx`
- **Purpose**: Alert state management
- **Features**:
  - ☐ Alert state context
  - ☐ Real-time updates
  - ☐ Alert actions
- **Status**: To be tested

ThemeContext.jsx

- **Location**: `owkai-pilot-frontend/src/contexts/ThemeContext.jsx`
- **Purpose**: Theme management
- **Features**:
  - ☐ Dark/light theme toggle
  - ☐ Theme persistence
  - ☐ Dynamic styling
- **Status**: To be tested

AccessibilityContext.jsx

- **Location**: `owkai-pilot-frontend/src/contexts/AccessibilityContext.jsx`
- **Purpose**: Accessibility features management
- **Features**:
  - ☐ Accessibility preferences
  - ☐ Screen reader support
  - ☐ Keyboard navigation
- **Status**: To be tested

🧪 Test Files

AgentAuthorizationDashboard.test.jsx

- **Location**: `owkai-pilot-frontend/src/components/__tests__/AgentAuthorizationDashboard.test.jsx`
- **Purpose**: Unit tests for authorization dashboard
- **Features**:
  - ☐ Component rendering tests
  - ☐ Interaction tests
  - ☐ API integration tests
- **Status**: Review test coverage

📊 Component Testing Priority

Critical Business Components (Must Test First)

1. **Login.jsx** - Authentication gateway
2. **Dashboard.jsx** - Main application interface
3. **AgentAuthorizationDashboard.jsx** - Core authorization features
4. **AIAlertManagementSystem.jsx** - Alert management
5. **EnhancedPolicyTab.jsx** - Policy management
6. **SmartRuleGen.jsx** - Smart rules engine

Enterprise Features (High Priority)

1. **EnterpriseUserManagement.jsx** - User administration
2. **EnterpriseSettings.jsx** - System configuration
3. **SecurityPanel.jsx** - Security overview
4. **Analytics.jsx** - Performance analytics

UI/UX Components (Medium Priority)

1. **Sidebar.jsx** - Navigation
2. **ToastNotification.jsx** - User feedback
3. **GlobalSearch.jsx** - Search functionality

Supporting Components (Lower Priority)

1. **Profile.jsx** - User profile
2. **SupportModal.jsx** - Help system
3. **BannerAlert.jsx** - System alerts

Next Step: Begin systematic testing of each component starting with critical business components.
